GROW ESSENTIALS

FOX FARM PRODUCTS – liquid teas, potting soil, organic fertilizer

WORM CASTINGS – check the Help Center at Prescottvalleynursery.com for full details on why this amendment is so important and effective

LODGE POLES – holds the tree against the wind so roots can develop without being torn by the jostling winds, remove in six months to two years

GYPSUM – a universal soil amendment with 36 benefits, in the Prescott area it is especially important for it's soil softening ability

MULCH – Mix 50% with native soil for planting, top dress for appearance and soil health, regulate soil temperature and to retain moisture

NOTES:
